Caribbean Destination Options Continue to Grow for Meetings and Incentives

Dominican Republic Destination Management Company ECT Events and Meetings chooses SNC Destinations as US sales and marketing representative

SUNRISE, Florida – March 15, 2007 -- SNC Destinations announced today that it will be partnering with ECT Events and Meetings of the Dominican Republic to bring more destination options to meeting and incentive clients. ECT joins a portfolio of independently-owned destination management companies represented nationally by SNC Destinations, a Florida-based company that assists meeting planners and incentive travel buyers in providing destination management solutions.

“We are excited to be working with ECT, Stephane Satin, and his team,” says Simone Champagnie, managing director of SNC Destinations and membership committee chair for the Society of Incentive and Travel Executives. “For conferences, meetings, even small incentive trips, the Dominican Republic has evolved into a desirable destination with growing capacity and endless diversity given its rich history and choice of entertainment and leisure activities.”

ECT Events and Meetings is the only Destination Management Company in the Dominican Republic solely dedicated to meetings and incentives.

“We look forward to this partnership with SNC Destinations,” says Stephane Satin, president of ECT. “As we expand our sales into the U.S. market, we are confident that the professionalism and values that we share with SNC will position our company in this market.”

SNC Destinations officially launches ECT Events and Meetings on its website giving meeting planners and incentive travel buyers immediate access to destination information and online RFP form.

SNC Destinations is a hospitality marketing and training company that provides superior options in destination management solutions, while delivering tools necessary to further develop management and staff and enhance the experience of their guests and customers.
